

Remembering
Dr. Lee Stiff

TODOS remembers Dr. Lee Stiff - a great mathematics educator, scholar, and personal friend to many. TODOS acknowledges his work for equity and access. In 2017, he received TODOS' Iris Carl Award for Equity and Leadership. Dr. Stiff was also a TODOS Conference Keynote Speaker. As NCTM President, he often spoke about beliefs, expectations, and the importance of leaving no child behind. Dr. Stiff's many contributions to mathematics education will have a lasting effect on our work for years to come. We pause today to honor him and say Thank You!

- Linda M. Fulmore, TODOS President
