TODOS 2023 Conference

June 21 - 23, 2023

Albuquerque, NM

#TODOS2023

TODOS: Mathematics for ALL will host an in person conference June 21 - 23, 2023 on the homelands of the Pueblo of Sandia, in a place now known as Albuquerque NM. We are in the midst of planning an exciting program so that we can engage in conversations around the theme, “Actions in Mathematics Education (AiME): Catalyzing, Cultivating, and Expanding Critical Transformations.”

We are excited to announce two keynote speakers: Dr. Belin Tsinnajinnie, a research associate with WestEd and Dr. Kari Kokka, an assistant professor of mathematics education at the University of Pittsburgh.

The conference planning committee and the program committee are working hard to plan a program and experience where we will learn from one another, have fun together, and celebrate students and teachers. You will have the opportunity to join like-minded humans who are committed to actions that will cultivate, catalyze, and expand critical transformations so that ALL have access to, and succeed, in a high quality mathematics education! And, there will be a special opportunity to celebrate the 20th Anniversary of TODOS: Mathematics for ALL!

I INVITE YOU AND YOUR COLLEAGUES TO JOIN US FOR THIS SPECTACULAR PROFESSIONAL LEARNING EXPERIENCE IN JUNE 2023.

The conference will be held at [Hotel Albuquerque at Old Town](#) and I look forward to meeting YOU and YOUR COLLEAGUES in Albuquerque in June 2023.

With respect and gratitude,

Florence Glanfield, President
TODOS: Mathematics for ALL
