

California Action Network for Mathematics Excellence and Equity (CANMEE)

CANMEE Lesson Study Facilitators Online Course

Goal: Deepen your understanding of effective ways to start, facilitate, and support a CANMEE lesson study team with a dual focus on the student (or equity) and math.

“I could see the(teacher’s) mindset shift happening in real time – ‘I do need to start thinking about what my students can do, instead of constantly just assuming that they can’t do it.’ ... What conditions do we need to set up as the adults, professionals in the room where a student would feel comfortable doing this (mathematics)?” Chris Jackson, Rialto facilitator

“We learn to do the work by doing the work.” [Richard Elmore \(2008\)](#)

Who Should Attend:

Leaders interested in facilitating CANMEE lesson study

Recommended prerequisites

- Knowledge of the CANMEE lesson study process
- Experience in lesson study either as a participant or facilitator

Synchronous Dates and Times

(Pacific Time)

| | |
|-------------------------|-------------------|
| Sept. 12, 2022 (Monday) | 4:00 pm - 6:00 pm |
| Sept. 19, 2022 (Monday) | 4:00 pm - 6:00 pm |
| Oct. 3, 2022 (Monday) | 4:00 pm - 6:00 pm |
| Oct. 14, 2022 (Monday) | 4:00 pm - 6:00 pm |

Asynchronous assignments prior to and between online meetings.

Approximately 30 minutes for each session

Assignments consist of readings, videos, and/or work with your students

Costs: Complimentary for California Educators, \$25 for out of state participants

Upon completion of all four sessions, you will be invited to follow up networking opportunities to continue to learn from each other.
