

A Warm Welcome From Your New Managing Director February 2024

Dear TODOS Community,

I am truly honored and thrilled to take this opportunity to introduce myself as your new Managing Director. My name is Vivian Rodríguez, and I am both humbled and excited to step into this role within our remarkable organization.

First and foremost, I want to express my deep gratitude to the entire TODOS family - staff, volunteers, donors, and supporters. Your dedication and passion for our mission have already left a profound impression on me, and I look forward to working closely with each and every one of you as we continue our journey of positive impact.

I began my career as a classroom teacher in Houston, Texas where I made it my mission to incorporate exploration based learning into all of my lessons. This began my 14 year journey of working to make STEM accessible for all types of students. I admire the work of TODOS and the transformative changes it brings to our community, and I am thrilled to now be a part of it.

As I step into this new role, I am acutely aware of the challenges and opportunities that lie ahead. However, I am confident that, together, we can overcome obstacles and further elevate the incredible work already being done. My vision for TODOS is to create accessible systems to share our message and resources, and I am eager to collaborate with all of you to make this vision a reality.

In the coming months, I look forward to connecting with each of you, hearing your insights, and working together to propel TODOS to new heights. Our community deserves nothing less, and I am committed to leading our dedicated team in pursuit of our shared mission.

Please stay tuned to the monthly Enews for more updates, insights, and opportunities for engagement. I am excited to embark on this journey with you all and can't wait to see the incredible impact we can make together.

Thank you for your warm welcome and your ongoing support. Here's to a future filled with positive change and meaningful progress.

Warm regards,

Vivian Rodríguez, Managing Director
TODOS: Mathematics for ALL
