

## LaunchYears Math Organizations Leadership Network March 2024

TODOS is one of twelve organizations that make up the [LaunchYears Math Organizations Leadership Network \(LY-MathLN\)](#). Through this network, we work together to determine actions for the field to impact students in the transition space from high school into postsecondary education.

Our new [Call to Action Statement](#) calls on the mathematics, statistics, and education communities to work to improve the mathematics experiences and outcomes for students in their last two years of secondary and first two years of postsecondary education. We invite you to [read the full statement](#) and explore the recommendations and associated tools and resources.

Chapter 13, "How might administrators make a difference in our students' transition tears?" in TODOS' new book, *Antiracist Mathematics Education: Stories of Acknowledgement, Actions, and Accountability* highlights the work of the Launch Years Math Organizations Leadership Network.
