

TODOS has been invited to contribute a strand addressing equity and ELL issues, in particular, for the 2016 California Mathematics Council-North (Asilomar) Conference with **three** morning 60-minute and **two** afternoon 90-minute sessions. The conference will be held December 2 – 4, 2016 in Pacific Grove, California. The theme for the conference is “*The Mathematical Practices: A Reality in Every Classroom.*” The portal for proposals is currently open.

A proposal for the strand should be consistent with the mission of TODOS and address at least one of the TODOS goals (<http://www.todos-math.org/mission-goals>).

If you would like to be considered for the TODOS Strand, then:

1. read the letter from Ana England, CMC-N Conference Program Chair, which contains guidelines and information regarding financial support from CMC-N at <http://cmc-math.org/cmc-north/speakers/>
2. input your proposal on this website by clicking the link “submitting a proposal online.”
3. save the confirmation email that you will receive from CMC-N; it will have your proposal embedded.
4. forward your confirmation email to me at [csae@cox.net](mailto:csae@cox.net) by **Friday, April 1, 2016**.

The TODOS Conferences Committee will review the proposals for the TODOS Strand and will notify you regarding your status for the strand by Friday, April 15. The TODOS Conferences Committee may suggest edits to your proposal to help clarify or strengthen your title and description. You may then access your proposal on the CMC-N website and make changes before April 30. Once your proposal has been selected for the TODOS strand, you may not change the type of session because of the types of slots allocated to us. The CMC-N Program Committee will schedule the chosen presentations.

If your proposal is not selected for the TODOS Strand, then it will still be considered by the CMC-N Program Committee for inclusion on the program. If you miss the TODOS strand deadline of April 1, 2016, you may still submit a proposal directly to CMC-N for general consideration by the Program Committee until April 30, 2016.

We hope to receive many excellent proposals for the TODOS strand so that we can offer very strong equity sessions to attendees. Please send your proposal in by **April 1, 2016**.

Thank you!  
Carol
