

TODOS has been invited to contribute a strand for the 2016 California Mathematics Council-South Conference with **up to 8** sessions. The conference will be held November 4 – 5, 2016 in Palm Springs, California.

A proposal for the strand should be consistent with the mission of TODOS and address at least one of the TODOS goals (<http://www.todos-math.org/mission-goals>) and address the theme of the conference, “**Sparking Deeper Understanding.**”

If you would like to be considered for the TODOS Strand, then:

1. read the Speaker Information (Step One link) on the CMC-S website, [www.cmc-south.org](http://www.cmc-south.org) . This letter contains guidelines and information regarding financial support from CMC-South.
2. input your proposal using the Proposal Site Link (Step two). The portal for proposals is currently open and will close on May 1, 2016.
3. write “Part of TODOS Strand” in the “Notes to Program Committee” section of the proposal system.

The CMC-South Conference Program Committee will review the proposals for the TODOS Strand and will notify you regarding your status for the strand by June 20, 2016.

If your proposal is not selected for the TODOS Strand, then it will still be considered by the CMC-South Program Committee for inclusion on the program.

Let’s provide a strong strand for this large CMC conference.

Thank you!  
Carol
