

August 2017 Reading

Suggested by the Association of State Supervisors of Mathematics (ASSM)

April - Equitable Mathematics Instruction, Great Lakes Equity Center Newsletter
The Mathematical YAWP by Francis Su, MAA past president

Targeted Questions for August Reading:

- Whom do we shepherd towards taking more math courses and who do we discourage and why?
- What role does mathematics play in human flourishing and how can we talk about it in our various roles?
- What actions can we take as individuals, in our home communities, and in our scholar communities to begin “Genuine Equity Work in Mathematics?”
